🪪 ABOUT ME

A passionate web developer with experience in front-end development and an internship experience in software testing. Has strong attention to detail, problem-solving skills, teamwork skills, and a fast-learner. Aims to continue my career in the web development industry and develop my full potential by consistently learning new skills and technologies and using them to contribute to a dynamic and innovative team.

🧠 SKILLS

Programming (HTML5, CSS, SCSS, Git, PHP, Pug, JavaScript, TypeScript, WordPress, SQL, Java, Bootstrap, React Native)

Tools (VS Code, GitLab, Figma, XAMPP, MySQL, FileZilla, NetBeans, Adobe XD/Photoshop/Illustrator, MS Office, Google Workspace)

Soft Skills (Adaptability, Analytical and problem-solving skill, Strong attention to detail, Time management skill, Teamwork skill, Written and verbal communication skill, Organizational skill, Good eyes on design)

💼 PROFESSIONAL EXPERIENCE

Jr. Front-End Engineer   Apr 2023 – Oct 2023
Upward Next, Inc.   Makati City, Metro Manila
- Contributed to multiple websites/landing pages and WordPress development projects.
- Crafted webpages using SCSS preprocessor, Pug templating engine and Typescript.
- Customized WordPress functionalities (contact form, custom post types) and themes using PHP and WordPress plugins.
- Practiced writing clean, readable and maintainable code in accordance with company standards.
- Collaborated effectively with Japanese designers to understand front-end design and functionality requirements.
- Conducted code reviews for fellow team members.

Software Quality Assurance Analyst Intern   Oct 2022 – Jan 2023
LEENTech Network Solutions, Inc.   Tanza, Cavite
- Analyzed test plan, user and technical requirements for creating test cases.
- Written and executed test cases and for an e-commerce project.
- Reported defects/issues in the software's interface (UI) and user experience (UX)
- Conducted Manual Testing in a software, including functional testing (Integration Testing and Regression Testing) and non-functional testing (Cross-Browser Testing and Responsive Design Testing).
- Worked with a Scrum Team that applies Agile Methodology in their software development lifecycle.
